

● *Customer Testimonial*

*“With AuraPortal we simultaneously perform **thousands of proceedings, thousands of processes and thousands of documents**, all integrated. Also, it’s a software open to the **instantaneous changes** of the proceedings, formats, reports etc, regardless of the company type.”*

Eng. **Mr. Morales**, Design and Installation Responsible in the Exploration and Production Division.

*“**Increasing the security** of both our business partners and our users is one of SODEXO’s highest priorities”. “That’s why we needed a solution that would facilitate our **mission to constantly improve our management systems in the PRL environment**”.*

**Mr. Risco**. Sodexo Security and Health Department Responsible.

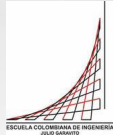

*“All these problems encouraged us to buy a technology solution that could help us **manage these processes without increasing our current human resource levels** and that it could be **used in the future for other process management** in the company under a single technology, such as quality and claims monitoring which are also very important to us”.*

**Mr. Alfonso de Carlos Muñoz** – General Manager

● *Customer Testimonial*

*“After evaluating 8 suppliers we opted for the AuraPortal BPMS because, being one of the most important in the market and used by big multinational companies, **it was the only one that allowed us to start the project in a record time**”.*

Engineer **Mr. Mosquera** - The Colombian School of Engineering

ArcelorMittal

*“During a long time we were looking for a solution that could give us the **control of all automated processes to improve them and to create new ones in an easy way**. In this sense, I am impressed with the features provided by AuraPortal platform integrated with the RSA-CSY system and I can say that we found it.”*

**Mr. Santos**, Art and Culture Manager.

*“The implementation of the software GEA-TOYOTA, based on AuraPortal BPMS allowed us to **centralize the work and keep the same criteria** between our distributors all through the country”.*

**Mr. Karl Van Dijck**. Corporate Business Topics Manager-Toyota
